About the Authors	<i>ix</i>
About the Editor	<i>xi</i>
About the Technical Reviewer	<i>xiii</i>
Introduction	<i>xv</i>
 Chapter 1 Creating Your First JSP Page.....	<i>1</i>
Installing the Software	<i>1</i>
Creating Your First Web Application	<i>9</i>
Exploring a Brief History of Java and the Web	<i>13</i>
Summary	<i>21</i>
 Chapter 2 Learning How HTML Works.....	<i>23</i>
Summarizing HTML	<i>23</i>
Creating HTML Forms	<i>40</i>
Using HTML Elements	<i>43</i>
Finding Further Resources	<i>58</i>
Summary	<i>59</i>
 Chapter 3 Introducing JSP	<i>61</i>
Understanding the Available Object Scope	<i>61</i>
Understanding JSP Code Types	<i>62</i>
Using the Java Standard Tag Library (JSTL)	<i>74</i>
Processing Forms with the JSTL	<i>79</i>
Summary	<i>85</i>
 Chapter 4 Working with Data.....	<i>87</i>
Introducing Databases	<i>87</i>
Introducing SQL	<i>97</i>
Manipulating the Database	<i>107</i>
Revisiting the Pizza Application	<i>119</i>
Summary	<i>124</i>

Chapter 5 Making Decisions, Decisions	125
Introducing Arrays	126
Comparing Data Values	133
Using Logical Operators	134
Making Decisions	135
Introducing Conditional Statements	136
Understanding Loops and Iteration	153
Introducing Branching Statements	158
Summary.....	165
 Chapter 6 Reusing Code	 167
Introducing Code Reuse	168
Planning for Reuse	169
Understanding Mechanisms for Reuse.....	179
Going Beyond JSP	189
Summary.....	205
 Chapter 7 Performing Time Management.....	 207
Introducing the Date Class	207
Formatting Dates with the JSTL	215
Summary.....	221
 Chapter 8 Using JSP and XML Together	 223
Introducing XML	223
Understanding the Structure of XML Data	225
Defining Validity with Schemas	232
Understanding XSL Transformations	249
Summary.....	254
 Chapter 9 Going Behind the Scenes.....	 255
Web Applications and web.xml	256
Introducing the Java Servlet Technology	263
The Servlet Architecture	266
The Servlet Life Cycle	270
Collaboration Between Servlets	276
Getting Initialization Information	284

Filters	288
Summary	297

Chapter 10 Implementing the Model 2 Architecture and Using Struts..... 299

Architecture of Web Applications	300
The Struts Framework	304
Installing and Configuring Struts	308
The Struts Configuration File	313
Core Struts Components	330
Introducing the Struts Tag Libraries	339
Finishing the View	356
Summary	361

Appendix A JSP Syntax Reference..... 363

Preliminaries	364
Directives	365
Scripting Elements	369
Standard Actions	371
Tag Libraries	378
Implicit Objects	379

Appendix B JSP Implicit Objects..... 381

The request Object	382
The response Object	389
The out Object	394
The session Object	397
The application Object	399
The exception Object	402
The config Object	403
The page Object	403
The pageContext Object	403

Appendix C XML Configuration Files..... 405

Common Elements of web.xml	405
Common Elements of the Tag Library Descriptor	418
Common Elements of the Struts Config File	423
